

GU3332

"THE VIRGINIA"

THIS hotel was erected by Mr. Leander J. McCormick, so well known from his long connection with the "McCormick" Reaper, and

every detail of construction and furnishing has been carried out with the intention to produce an absolutely fire-proof building, and a finished hotel second to no other. How near this result has been reached, the following pages of illustrations will partially show.

The hotel is conducted on the "American" plan, its cuisine and service being unexcelled. It is located in the most fashionable residence section, and yet in such close proximity

to the business district that guests can reach the City Hall, Board of Trade, Theatres, etc., in a few moments' time.

To those seeking quiet and luxurious surroundings, "The Virginia" offers advantages possessed by no other hotel in the city.

Room Diagrams and rates mailed on application. Special rates to families or to those making an extended stay.

For further information, or the engagement of rooms, address

THE VIRGINIA HOTEL,
